PRODUCTS

YOUR
INTERACTIVE
EXPERIENCE

This touch table cabinet will attract the attention of multiple people at the same time. The cabinet has an integrated power lift providing easy adjustment for the most ergonomic height, allowing the user to stand or sit during their interactive experience. The cabinet has ample space to place a PC tower and provides an easy access network and power outlets.

PreStop Products uses Actuators and Lifting Columns which are designed and verified to be in conformity to all applicable regulatory requirements and standards. Declarations of Conformity and CB Test Certificates, issued by National Certification Bodies, are available on request.

All our lifts are equipped with PIEZO™ (collision protection). PIEZO minimizes the risk for damages on a desk caused by squeezing or blocking of an obstacle.
